BRAND MANUAL 2016

Stafix Ltd.

LOGOS & PRODCUTS ICONS

COMPANY LOGO

Company logo should only be used in orange, white or black, especially in this order. Whenever possible, the logo needs to be in orange.

ORANGE

All occasions when the logo is easily recognised from the background.

WHITE

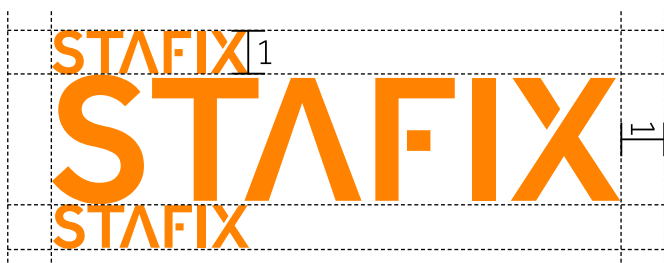

Whenever the orange logo doesn't stand out enough from the background.

BLACK

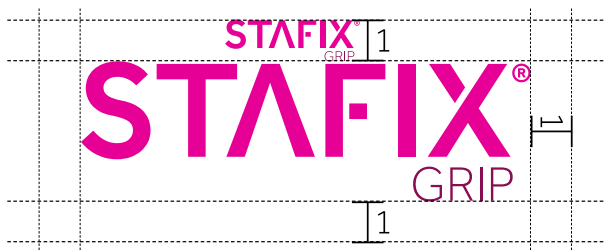

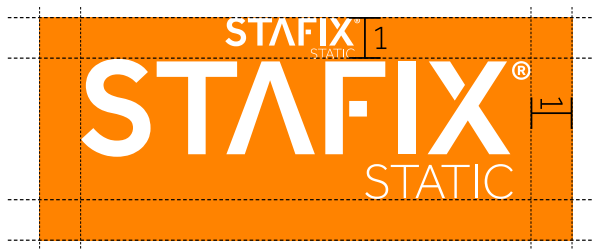

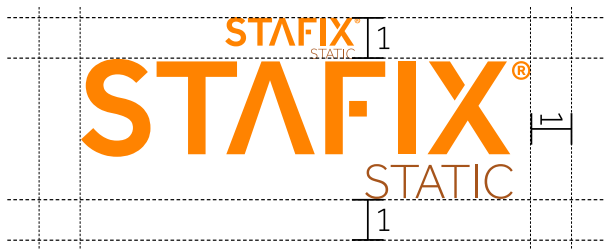

Only to be used in occasions nor the orange or the white fits the layout or the design.

For each logo, leave a 1:1 amount of space around the logo as shown in the examples below.

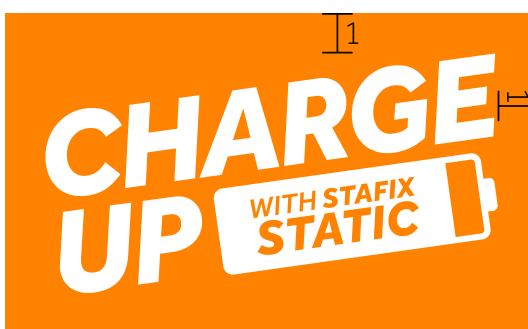

PRODUCT LOGOS

Colored logos should be used whenever possible. White are used in case the colored logo doesn't stand out from the background. Used when a certain product category needs to be marked, for example in samples. For each logo, leave a 1:1 amount of space around the logo as shown in the pictures below.

PRODUCT ICONS

Colored icons should be used whenever possible. White are used in case the colored logo doesn't stand out from the background. Used in more unofficial ways, for example in hoodies. For each logo, leave a 1:1 amount of space around the logo as shown in the pictures below.
